EIR EMBOSSED

The CHARLOTTE Granby and Groth palettes have EIR embossing which stands for Embossed in Register.

EIR is a manufacturing method that creates a grain appearance consistent with the look of a real hardwood grain. This process aligns the embossing on the sheet with the printed wood grain design and intensifies the visual impact of the depth, texture and appearance of the floor while still providing durability and ease of maintenance.

- Patented Coating
- 30% More Scratch Resistance Over Typical Coatings
- Exceptional Wear Resistance and High Strength
- Low-gloss finish
